

We **GROW** rapidly.
with us!

Would you like to grow even faster than the Machine Vision market?

Take the opportunity and join us at OPT MACHINE VISION, a global provider of components for machine vision with a focus on LED illuminations, LED controllers, lenses, industrial PCs, software libraries, and accessories. OEMs and system integrators from all around the world solve their machine vision tasks with the results of the passionate work of more than 800 employees at OPT.

For example, your Smartphone has probably been manufactured and automatically inspected with products of OPT Machine Vision.

For our fast-growing markets in Europe, Middle East, and Africa we are offering a position for

Technical Sales EMEA (home office or on-site)

What you can expect:

- You are invited to become an integral part of our small and high performing team with a spirit that focusses on customer satisfaction
- You will discover and win new customers internationally and design innovative solutions for their machine vision applications. Support the selection of suitable cameras, illuminations, and lenses as well as the system design.
- You will specify the tailored customization of components for your customers and collaborate with our developers in China.
- We offer a modern working environment in Stuttgart or Berlin, a company car, and the option to work from home.
- Enjoy widely flexible working hours
- We honor your success with a superior salary

What we expect:

- 3+ years' experience and success in sales of machine vision products
- Bachelor's or Master's degree in Engineering
- Full professional proficiency English
- Advanced German skills are beneficial

Would you like to grow even faster than the machine vision market?
